SUMMARY

Computer Science Engineering (AI&ML) student with project experience in Agentic AI, RAG, LangGraph, LangChain, and Python-based ML pipelines.

EDUCATION

B.Tech. CSE (AI&ML), CMR College of Engineering and Technology	2023–2027	8.62
Intermediate, Trividya Junior College	2021–2023	98.4%
SSC, Dr. K.K.R.'s Gowtham Concept School	2020	10.0

PROJECTS

- **Agentic AI Assistant for Intelligent Document Retrieval using LangGraph and RAG**

Nov. 2025 – Jan. 2026

Agentic AI-based Information Assistant

GitHub

- Developed an Agentic AI assistant with intent detection, session memory, and RAG-based document retrieval using LangGraph and ChromaDB.
 - Implemented ATS resume scoring with policy guardrails and human-in-the-loop approval for high-risk actions.
 - Technologies: Python, LangGraph, LangChain, HuggingFace Transformers, ChromaDB, RAG, Streamlit.
- **College Info Chatbot using RAG**

May. 2025 – Jul. 2025

Retrieval-Augmented Generation Chatbot

GitHub

- Built a RAG-based chatbot to answer college-related queries such as fees, hostel facilities, and academic policies.
 - Designed context-aware prompts with fallback responses when relevant information was unavailable.
 - Technologies: Python, LangChain, HuggingFace, ChromaDB.
- **Student Performance Prediction**

Aug. 2025 – Sep. 2025

Machine Learning Project

GitHub

- Built a machine learning pipeline to classify students as pass/fail and predict mathematics scores.
 - Optimized model performance using GridSearchCV and cross-validation.
 - Technologies: Python, Pandas, Matplotlib, Machine Learning.

TECHNICAL SKILLS

- **Programming:** C, Python, Java(Basic)
- **Development:** HTML, CSS, JavaScript(Basic)
- **Databases:** MySQL
- **ServiceNow:** Platform Administration, Application Development
- **CS Subjects:** Data Structures and Algorithms, OOPs concepts, Operating System, Computer Networks
- **Machine learning & AI:** Supervised and Unsupervised algorithms(Basic), Agentic AI, Retrieval-Augmented Generation
- **Frameworks & Libraries:** LangChain, LangGraph, HuggingFace Transformers, NumPy, Pandas
- **Soft skills:** Adaptability, Time Management, Quick Learner

CERTIFICATIONS

- **ServiceNow**, Certified System Administrator (CSA) – 97%; Certified Application Developer (CAD) – 90%
- **Cisco**, Python Essentials 1; Introduction to Modern AI
- **Coursera**, Python Programming Fundamentals
- **HackerRank**, SQL (Basic)

COMMUNITY ENGAGEMENT

- **HYA (NGO)**, Member of HYA Season XIV Phase 2, worked on clean water projects.

Mar. 2025 – Jun. 2025
- **StreetCause**, Volunteered in community development and social awareness initiatives.

Nov. 2024 – Jun. 2025

ACHIEVEMENTS

- **Certificate of Merit**, 2nd in school, 28th National Mathematics Talent Search Competition2017
- **AP EAMCET**, Secured rank 7100 in AP EAMCET Engineering Entrance Exam.2023
